

DEVELOPER HANDOVER BRIEF

The Rankers Academy Remote Director Dashboard & Tracker System

Prepared for: Development team

Priority: Complete before 25 May 2026

Project context

The Director of The Rankers Academy will be on leave from 25 May to 5 June 2026. During this period, the team must operate without on-ground supervision. To enable remote monitoring, a complete tracker system has been built consisting of:

- A custom-designed HTML dashboard for the Director's iPhone (Apple-aesthetic, glass UI)
- A multi-sheet Excel tracker (already uploaded to Google Sheets, fully configured)
- A lead tracking spreadsheet (already uploaded, shared with team)
- Printable PDFs for staff reference (SOP + WhatsApp report templates)

What's needed from you: Host the HTML dashboard online so it becomes a one-tap home screen icon on the Director's iPhone, with working tap-to-call functionality. Standard task, low complexity, but time-sensitive.

1. SCOPE OF WORK

Primary task — Host HTML dashboard

Take `Director_Dashboard_APPLE.html` and host it at a permanent URL accessible from the Director's iPhone. Recommended approach: GitHub Pages (free), Netlify (free), or Vercel (free) — any one is acceptable.

Acceptance criteria

1. .	Dashboard accessible via HTTPS URL from iPhone Safari
2. .	Adding to iPhone home screen creates a proper app-style icon
3. .	Tapping any team member's card initiates a phone call (tel: protocol works)
4. .	Tapping the three sheet buttons opens the linked Google Sheets
5. .	Page loads in under 3 seconds on 4G
6. .	Rendering matches the design as built (no layout breakage)
7. .	Live time updates in the header pill every 30 seconds
8. .	Day counter shows correct days remaining until 5 June 2026

Optional enhancements (Phase 2)

These are nice to have, not blockers. Discuss with the Director after Phase 1 is live.

Feature	Description
Live data integration	Connect dashboard KPI cards to Google Sheets via Sheets API so 'Today's Pulse' numbers update automatically from staff logs.
Push notifications	Send Director iPhone push notifications when red flags are logged or reports are missing past EOD.
Compliance auto-refresh	Pull compliance grid ticks live from Google Sheets so green/red marks update without manual entry.
Backup auto-sync	Daily automated backup of both Google Sheets to Director's email.

2. TECHNICAL DETAILS

Stack

Single-file HTML application. No build step required. Uses vanilla JavaScript, modern CSS (backdrop-filter, CSS grid), Google Fonts (Inter, Inter Tight). No frameworks, no dependencies.

Browser support

Target: iOS Safari 15+. CSS backdrop-filter requires Safari 9+ with -webkit- prefix (already included). Inter Tight loads from Google Fonts CDN.

Configuration (already embedded)

The HTML file contains the following constants near the bottom in the script block. Do NOT modify unless you intend to update the data:

```
const CONFIG = {
  leavePeriod: {
    start: new Date('2026-05-25'),
    end: new Date('2026-06-05')
  },
  today: { leads: 0, counsellings: 0, admissions: 0, cashIn: 0,
    missingReports: 0, redFlags: 0, mismatches: 0, staleLeads: 0 },
  compliance: {}
};
```

Embedded data — verified

All Google Sheet URLs and team phone numbers are already embedded. Do not modify these.

Name	Role	Phone
Anjali	Caller	+91 7558758487
Samiksha	Caller	+91 9503450558
Madhu	Counsellor	+91 9518516887
Sowmya	Marketing	+91 7219107078
Bawankar	Finance	+91 9960016328
Muzammil	DTP	+91 7620159998

Google Sheets URLs

Sheet	URL

3. RECOMMENDED DEPLOYMENT (GitHub Pages)

Step-by-step (15 minutes)

1. Create GitHub account

If team doesn't already have one — use Director's email or create a dedicated rankers@ account. github.com → Sign up. Free plan is sufficient.

2. Create public repository

Repository name: 'rankers-dashboard'. Public visibility required for free GitHub Pages. Initialize with README.

3. Upload index.html

Rename Director_Dashboard_APPLE.html to index.html. Upload to root of repository. Commit message: 'Initial deployment'.

4. Enable GitHub Pages

Settings → Pages → Source: Deploy from branch → Branch: main, folder: / (root) → Save. Wait 1-2 minutes.

5. Verify deployment

Visit [https://\[username\].github.io/rankers-dashboard/](https://[username].github.io/rankers-dashboard/) → confirm dashboard loads correctly with all glass effects rendering.

6. Test tap-to-call

On any iPhone, open URL in Safari → tap a team member's card → verify it triggers phone dialer prompt.

7. Configure Director's iPhone

Open URL in iPhone Safari → Share button → Add to Home Screen → Name: 'Rankers' → Add. App icon appears on home screen.

8. Hand off URL to Director

Send WhatsApp message with the final URL. Director should bookmark it AND have it on home screen.

Alternative platforms

If GitHub Pages is blocked or impractical, equivalent results from:

Netlify: Drag-and-drop deployment at netlify.com/drop. Free tier permanent. SSL automatic. Equivalent setup time.

Vercel: Sign up, click 'Deploy', upload file. Free hobby tier sufficient. SSL automatic.

Firebase Hosting: If team has existing Google Cloud project. Free Spark plan supports static hosting.

Custom hosting on academy's existing web server: If The Rankers Academy has an existing

website hosting, place file under a subdirectory like `therankersacademy.com/director/`.

4. FILES INVENTORY (10 files attached)

#	Filename	Purpose	Action
1	Director_Dashboard_APPLE.html	Main dashboard — Apple aesthetic, glassmorphism UI	HOST THIS
2	Director_Dashboard_FINAL.html	Earlier dashboard version (navy/gold). Use as design reference.	Reference
3	Rankers_Remote_Tracker.xlsx	Multi-sheet Excel — already in Google Sheets, do not re-upload	Backup only
4	Rankers_Lead_Tracker.xlsx	Lead pipeline tracker — already in Google Sheets	Backup only
5	Director_On_Leave_SOP.pdf	Staff reference document — decision authority, escalation, rules	Print for staff
6	WhatsApp_Report_Templates.pdf	6 templates — one per staff member, for daily WhatsApp reports	Print & laminate
7	Developer_Handover_Brief.pdf	This document	Reference

Notes for printable materials (PDFs)

Print at the office printer. Director_On_Leave_SOP.pdf — 8 copies, one per staff member plus a spare. WhatsApp_Report_Templates.pdf — print pages 2-7, laminate each, distribute to respective staff members.

5. TIMELINE & CONTACT

Hard deadline

Director leaves on 25 May 2026.

The dashboard MUST be live, tested, and on the Director's iPhone before they depart. Ideal completion: 22 May (Friday) so there are 3 days to iron out any issues. Worst-case acceptable: 24 May evening.

If you cannot meet this deadline, communicate that to the Director TODAY so a fallback can be arranged (printed bookmarks + Google Sheets app).

Director contact

The Rankers Academy
Plot 10, Buty Layout, RPTS Road, Laxmi Nagar, Nagpur 440022
Mob: 8329100890

Communication preference: WhatsApp for non-urgent updates. Call for urgent blockers.

Check-in expected:

- Within 24 hours of receiving this brief — confirm feasibility and ETA
- Daily progress update until completion
- Final delivery — share live URL + test on Director's iPhone in person if possible

Testing checklist (use before handover)

☐	Open URL on iPhone Safari — all sections render with glass effects
☐	Tap each of 6 team contact cards — phone dialer opens with correct number
☐	Tap each of 3 sheet buttons — opens correct Google Sheet
☐	Add to Home Screen — icon appears with correct name 'Rankers'
☐	Launch from home screen — opens in full screen (no Safari chrome)
☐	Day counter displays correctly (0 of 12 before 25 May, 1+ after)
☐	Live clock in header updates after 30 seconds
☐	Page loads in under 3 seconds on 4G
☐	Tested on at least one other iPhone for cross-device consistency

Director has bookmarked URL and has icon on home screen
